

ARE YOU READY?

DISCOVER THE WORLD OF DIGITAL TWIN TECHNOLOGY

Create a virtual replica of your facility or equipment to enable the highest levels of operational readiness and excellence.

USE CASES:

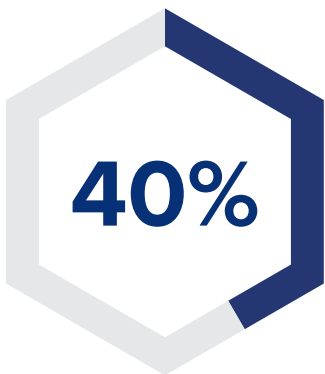

- Virtual commissioning
- Asset inventory
- Gemba Walks
- Maintenance planning
- Process optimization

BENEFITS:

- Significant time savings
- Less manual work
- Reliable real-time data
- Better decision-making
- Global collaboration

IMPACTFUL RESULTS

Digital Twin users have seen:

improvement in end-to-end efficiencies due to digitizing

reduction in drawing verification activities due to automation

decrease in deviations across the network

GETTING STARTED

Be Gemba-Walk-ready in about a week:

DAY 1

Virtual consultation

You'll get a sneak peek at the technology.

DAY 2

On-site demo

We'll walk the site with you and scan a small area.

DAY 3

Full site scan

The scanner can cover about a building per day.

DAY 4

Data processing

Our proprietary SLAM algorithm expedites the process.

DAY 5

Training and deployment

Your team will get up to speed and ready to go.

DAY 6

Ongoing support

Contact us for assistance and maintenance as needed.

SCHEDULE YOUR DIGITAL STRATEGY SESSION & FREE LIVE DEMO

Ready to transform your operations? In less than a week, you could be optimizing your facility with CAI's Digital Twin technology.
